

server::uiServer::chatReceived

```
graph LR; A[server::uiServer::chatReceived] --> B[server::uiServer::sgnChatReceived];
```

The diagram illustrates a signal connection. On the left, a gray rectangular box contains the text 'server::uiServer::chatReceived'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'server::uiServer::sgnChat' on the top line and 'Received' on the bottom line.
